CITRUS DEGREASER

Concentrated Grease and Oil Stain Remover

Product Description

Citrus Degreaser is an environmentally safe, citrus based, biodegradable, concentrated concrete degreaser and cleaner designed to remove even the toughest deposits of dirt, grease, grime, oil stains, and other contaminating fluids from concrete surfaces. Citrus Degreaser is formulated to be used in exterior and interior applications for general clean up and as a pre cleaning solution prior to etching or mechanically preparing a concrete surface.

Benefits & Features

- Pleasant citrus scent is less abrasive on the senses than many similar cleaners
- Formulated as an economical, concentrated solution which can be diluted up to 1:10 with water
- Safe for use with most mechanical scrubbing machines and cleaning equipment
- Biodegradable solution that easily dissolves hydrocarbons such as grease and motor oils
- VOC compliant for most areas in the United States and Canada

Recommended Applications

Citrus Degreaser is effective on applications such as broom finish concrete, smooth finish concrete, pavers, driveways, sidewalks & patios, garage & warehouse floors and many other concrete or masonry surfaces with tough stains that need to be removed.

Technical Information

Solids N/A Wet Appearance Transparent Orange

Drying Time Refer to Directions Dry Appearance N/A

Re-Coat Time Refer to Directions VOC Content Less than 100 grams/Liter

Foot Traffic Refer to Directions Wheel Traffic Refer to Directions

Application Temp 50°F - 80°F

Specifications/Compliances

Meets OTC, CARB, LADCO & SCAQMD VOC restrictions

Approximate Coverage Rates

100 - 150 square feet per gallon

*Coverage rates vary depending upon surface porosity and texture, and application method. Excessive build up should be avoided. Please note that product can be diluted up to 1:10 with water yielding up to more than ten times the coverage rate per gallon purchased.

Shelf Life

Up to one year from manufacture date in its original, unopened container stored at room temperature

Packaging

Available in 1 gallon, 5 gallon and 55 gallon containers

ORRVILLE 133 North Kohler Road Orrville, Ohio 44667 (330) 682-5678 CLEVELAND
7941 Granger Road
Cleveland, Ohio 44125
(216) 573-0770

COLUMBUS 690 Harrison Drive Columbus, Ohio 43204 (614) 253-3326

^{***}Testing in accordance with procedures outlined in EPA Method 24, "Volatile Organic Concrete VOC of Paints and Related Coatings". The solids content was determined in accordance with ASTM D 5095 and the VOC was calculated in accordance with ASTM D 3960.

Instructions for Use

<u>Surface Preparation:</u> Sweep the area to be cleaned free of trash and debris. Protect all areas not to be cleaned. Mask off adjacent surfaces with painter's tape or plastic duct tape. If needed, use a plastic or coated cardboard as a spray shield. Scraping off excess deposits may be necessary prior to application.

Mixing: Stir well before using. Material may separate during long term storage.

Product Application:

- 1. Use Citrus Degreaser straight for tough degreasing or dilute up to 1:10 with water for lighter duty cleaning.
- 2. Pre-wet the surface to be cleaned with clean water. Using a masonry wash brush, apply Citrus Degreaser at a rate of 100-150 square feet per gallon depending upon the porosity of the surface. When using on vertical surfaces, apply from the bottom to the top. Allow Citrus Degreaser to remain on the surface for approximately 20 minutes.
- 3. A stiff bristle brush should be used to work in and agitate any heavily soiled areas to help break the bond from the substrate.
- 4. Flush the cleaned area with water. A commercial high PSI and GPM pressure washer is the recommended method of flushing the cleaned surface, however, a garden hose with high pressure spray head may work sufficiently.
- 5. Repeat process as necessary. For heavy stains still left in concrete, spot clean using Citrus Degreaser un-diluted. Agitate and flush again to remove.

Please Note: Although Citrus Degreaser is a biodegradable product, it may still pose a threat to plant life. Please test prior to use in areas where this may be an issue.

Please Note: It is always recommended to test the product in a small, inconspicuous area (on the same concrete substrate) for desired results prior to application.

Clean-Up

Use soap and warm water. Dispose of containers in accordance with local and federal regulations.

Product Removal

Refer to directions.

Precautions & Limitations

- This product will freeze during storage. Store at temperatures above 40°F.
- All HVAC ventilation ducts should be somehow blocked prior to application so solvent fumes are not distributed.
- It is not recommended to apply product over carpet, tile, or other types of floor adhesives.
- This product may affect the surface of many new and existing concrete slabs. Test prior to use.
- This product is harmful if swallowed. Abide by recommended safety guidelines.
- This product is not a stripper and may not emulsify acrylic, epoxy, urethane, or any other coating.
- This product may be diluted. Note, the higher the dilution rate, the less strength to clean.

Special Notes

Please consult Safety Data Sheet (SDS) and read warranty information prior to use. This information can be requested by contacting customer service at 330-682-5678.
